

FATHER

OF A 9 YEAR OLD

06/09/00

This questionnaire is for the study child's father or person who takes the role of father. This could be the mother's husband or partner. The answers will help us to identify those problems that may be helped by changes in the health care system.

To answer simply tick the box which is most accurate in your opinion.

Some questions are the same as those you have answered before. This is so that we can tell what changes have happened to you.

Please answer all questions if you can, even if they are similar. If you do not want to answer a question or if it does not apply to you, put a line through it. There are no good or bad answers. Just tell us what is true for you.

All answers are confidential

THANK YOU FOR YOUR HELP
